Many counties are now allowing educators to receive a COVID vaccine and many grads have reported being able to receive vaccines. If you are able to get a vaccination appointment outside of UC Davis, we encourage you to do so! Some clinics/pharmacies will require proof of employment or a pay stub, both of which can be downloaded from UC Path.

For those trying to get a vaccine through UC Davis, we've heard that 4:30-5pm is the best window for checking for appointments.

Here are a bunch of websites that provide more information about vaccinations and/or offer appointments (some irregularly, so check back often!)
